Our Process

What Makes Us Different Then Our Competitors

Finance License

We can offer financing with different banks for our customers. We will make money on the front end and money on the backend. Front end (buy car for **\$100,000** and sell for **\$150,000** profit is **\$50,000**. Back end we can put up two points on the interest (APR).

Dealer License

Gives us the ability to buy cars at a wholesale price without paying sales taxes which is about **\$7,000** for every **\$100,000**.

Auction license

Gives us the ability to buy repossessed cars and also cars under market value.

Credit analysts

Help build your personal and business credit to buy vehicles under the business name and utilize business lines of credit. Reduces DTI (Debit to income ratio) on their credit profile. No personal liability on the personal credit when you use business credit.

Return Of Investments (ROI)

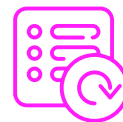

Short Term

- **10-15%** (determined by vehicle).
- Investment continues until vehicle is sold.
- Expected within **30-90 days** investments.

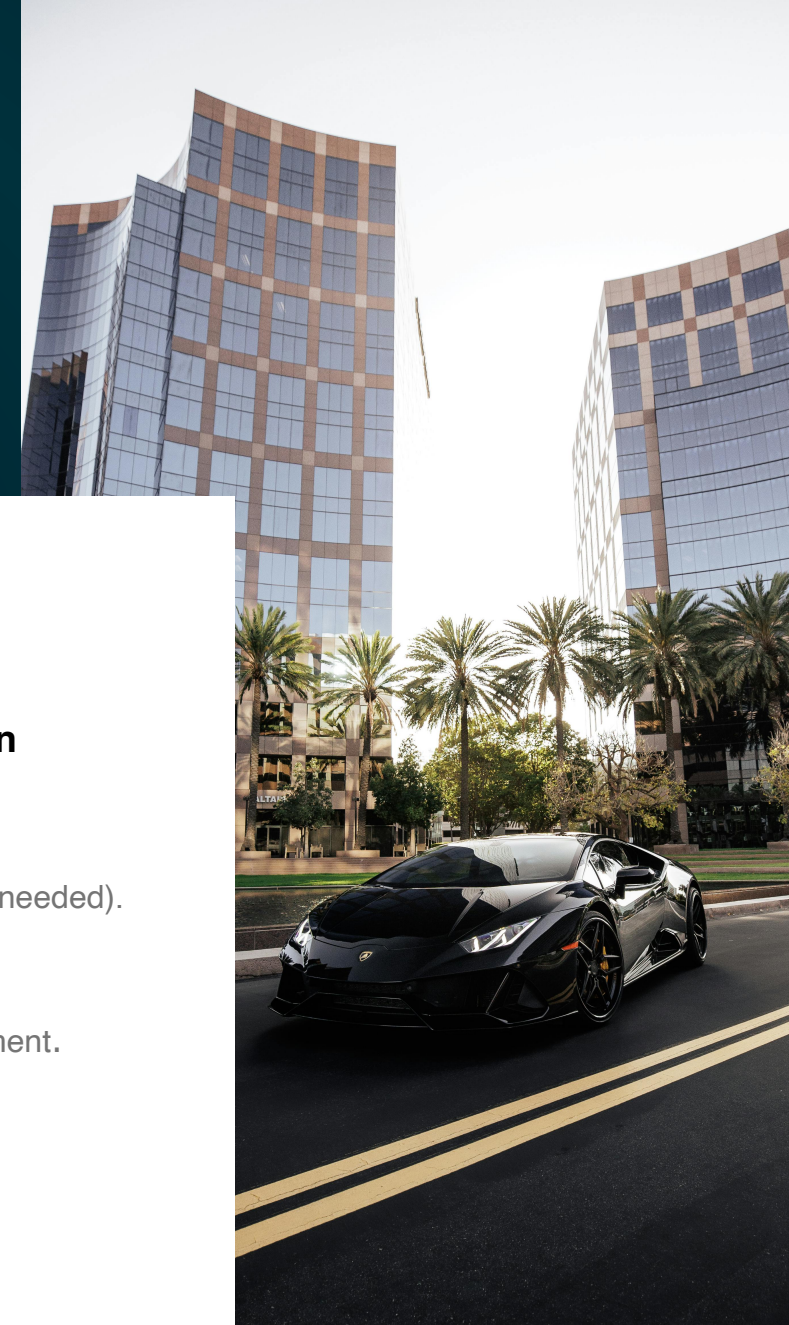

Long Term

- **60/40** split on profit per vehicle (60% the investor and 40% NEXT LEVEL MOTORS).
- Customize the vehicle (Brabus, Mansory, wide Bodykit's).
- Expected within **6-8 months** investment.
- Renting car until car is sold generating **monthly revenue** to pay for monthly payments.

Investment Breakdown

- Buy cars in the auction **wholesale price**.
- Inspection and repairs (if needed).
- Buy aftermarket Bodykit's and wheels.
- Marketing and advertisement.
